PROFESSIONAL SUMMARY

Experienced **PHP & Laravel Developer** with **freelance experience** building **full-stack web applications**. Specialized in integrating **e-commerce platforms** like **Salla & Zid**, developing **multi-vendor systems**, and creating **custom API solutions**. Strong problem-solving skills, backed by participation in competitive programming. Passionate about **scalable software solutions** and continuously learning new technologies.

CORE SKILLS

PHP	Data Structure
Laravel	Algorithms
MySQL	OOP
HTML	Rest Api
JavaScript	Git & GitHub
Css	Bootstrap

Work Experience

**Freelance PHP & Laravel Developer** | Remote 08/2024-Present

E-Commerce Platform Integration (Salla & Zid)

- Integrated **Salla & Zid APIs** with Laravel to sync products, orders, and inventory automatically.
- Implemented **real-time synchronization** between the store and the server.
- Developed a **notification and order management system** for real-time tracking of transactions.

EDUCATION

**Route Diploma Oct 2023 - Apr 2024**

- php &&Laravel track

**Bachelor of Science in Engineering Sept 2019-June 2024**

- AL-Azhar University
- Computer Engineering department
- Grade: Excellent

## PROJECTS

---

### Multi-Vendor E-Commerce System (Laravel & MySQL)

- Built a **multi-vendor e-commerce system** where users can buy products from multiple stores in a single order.
- Implemented **automated notifications** (real-time, email, and database) to inform each seller when their product is purchased.
- Integrated **secure payment methods**, allowing users to pay via email, Google, or Facebook authentication.
- Designed **separate dashboards** for admins and merchants to manage orders, products, and earnings.
- Developed **multi-guard authentication**, ensuring secure access for both admins and merchants.
- Added **real-time currency conversion** using an external API for dynamic pricing updates.
- Implemented **pagination and localization** to support multiple languages and improve user experience.
- Enhanced **search and filtering features** to help users find products easily.
- **GitHub Repository** : <https://github.com/fatemaasem/multi-vendor-store.git>

### Blog System PHP & MySQL

- **Authentication & Authorization**: Secure access with admin-only post management.
- Supports **English & Arabic**, with clear validation messages for a better user experience.
- Features **pagination** for smooth navigation.
- **GitHub Repository** : [https://github.com/fatemaasem/Blog\\_System.git](https://github.com/fatemaasem/Blog_System.git)

## Soft Skills

---

- Communication Skills
- Time Management
- Presentation Skills

## LANGUAGES

---

- Arabic (Native)
- English (Intermediate)
